Customer-Centric | Analytical | Technical Problem Solver | Leadership Experience

Aspiring software engineer with strong hands-on technical support experience and leadership in computer hardware and software environments. Proven ability to troubleshoot complex systems, support end users, and translate technical concepts for non-technical customers. Experienced in computer hardware diagnostics, operating system installations, data management, and customer-focused solution design. Seeking a backend software engineering role to leverage problem-solving skills, technical knowledge, and systems thinking.

Skills

- **Languages:** HTML, CSS, JavaScript, Python, Java, C#, SQL
 - **Technical Areas:** Backend fundamentals, troubleshooting, system diagnostics, OS installation, data transfer, hardware configuration
 - **Hardware:** PC building, RAM/storage upgrades, component selection, repair assessment

 - **Soft Skills:** Leadership, communication, customer support, problem-solving, adaptability
-

Education

Software Engineering Technology – Artificial Intelligence (Advanced Diploma)

Centennial College, Toronto, ON | Completed April 2024

Relevant Coursework: Communications Technology, Computer Programming, Hardware and Peripherals

Experience

Geek Squad – Team Lead (Computer & Tech Services)

Best Buy | August 2024 – March 2026

- Led daily operations for both the Computer Sales and Geek Squad departments, ensuring smooth workflow and strong customer service delivery

- Supervised and supported team members in technical troubleshooting, sales processes, and service desk operations
- Performed hands-on technical diagnostics for hardware and software issues including RAM/storage upgrades, component replacement recommendations, and system performance troubleshooting
- Executed software-level fixes such as Windows reinstallations, data backups/transfers, driver updates, and system recovery procedures
- Trained and mentored team members on technical processes, customer communication, and product knowledge
- Maintained high customer satisfaction by translating complex technical issues into clear, actionable solutions

Computer Sales Advisor

Best Buy | August 2023 – June 2024

- Assisted customers in selecting laptops, desktops, and peripherals based on performance needs and use cases
- Recommended hardware configurations tailored for gaming, productivity, and professional workloads
- Provided clear explanations of technical specifications including CPU, GPU, RAM, and storage differences
- Supported customers in post-purchase setup guidance and basic troubleshooting
- Contributed to sales performance through strong product knowledge and customer relationship building

Volunteer Experience

Volunteer Associate

The Robert McLaughlin Gallery, Oshawa, ON | Jan 2020 – Mar 2020

- Supported instructors and students in community art programs
- Assisted with administrative tasks, gallery tours, and safety procedures
- Helped maintain a positive and structured learning environment

Volunteer – Durham Dignity for the Homeless

Aug 2020 – Sept 2021

- Prepared and distributed meals for individuals experiencing food insecurity
 - Ensured food safety standards and accommodated dietary restrictions
 - Coordinated tasks including cooking, packaging, and logistics for weekly meal distribution
-
